SOLUTION

Standardised Work

Eliminate tribal knowledge and share best practices through visual work instructions.

Live Data

Real time data for up to date, informed decisions.

Track & Trace

Easily capture quality data for 100% traceability and peace of mind.

IoT Integration

Take advantage of Industry 4.0 and connect with other software, machines and tools.

BENEFITS

Keep your Knowledge In-House

Diverse customers, complex products and an ever-changing workforce can lead to many operational issues. By capturing tribal knowledge and transforming it into work instructions, companies can guarantee their workforce will always remain effective.

Reduce Defects

With step-by-step procedures, digital checklists, and live alerts, your defects will disappear. VKS makes sure you build your products right the first time, every time.

Increase Productivity

By standardising on best practices and providing easy to use, visual information, your workforce will operate at the highest levels of productivity, guaranteeing profitability.

Manufacturing is hard, that's why we simplify it. VKS is built by manufacturers, for manufacturers.
