

Worried about buying now, then regretting it later?

With our flexible pipe & joint structures you can :

Not only make your own tailored designs,

But also - later on - re-configure your design into **something else !**

Try this experience with our:

Re-usable Sanitization Cabin **built from lean pipes**

Technical Specs:

Dimensions:

(L*W*H): 150cm x 100cm x 230cm.

Power: 220 V

Tank capacity: 20 liters

Recommended solution: Sera Disinfectant.

Spraying System:

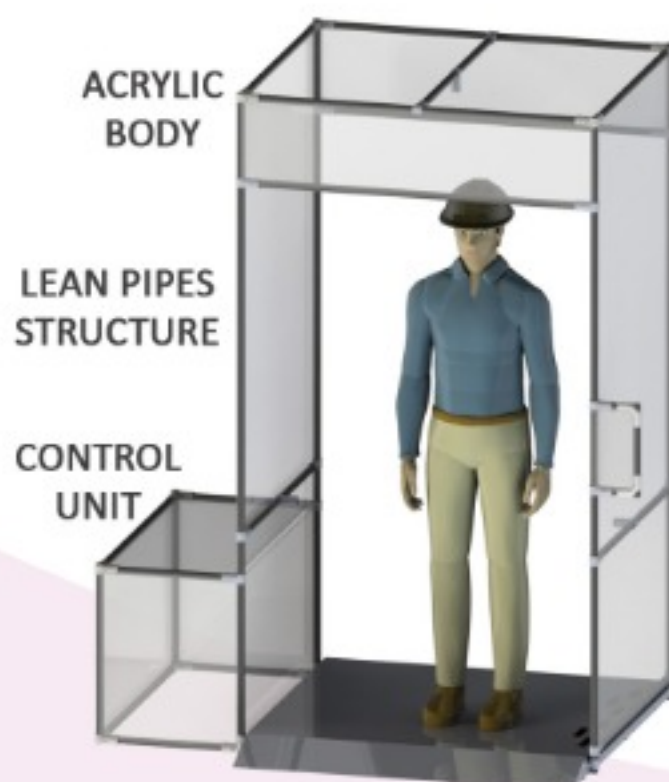

3 nozzles, automatically triggered spray, and with adjustable cycle time of spray.

Structure:

steel pipes and joints (plastic-coated pipes)
+ acrylic + steel base.

Features :

- * Ramp included - for wheelchairs, strollers, shopping carts, trolleys, and other wheeled equipment (maximum clearance width is 110cm)
- * Hand sanitizer gel dispenser included.
- * Can add your own logo and message on the sides of the cabin and on the front and back panel (whether on black or transparent acrylic).

PRICE: 19,500 EGP

Don't worry about future usage !

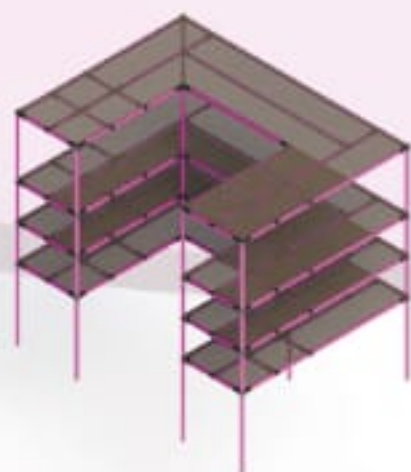

When you don't need the cabins any more ...

just turn them into something else !

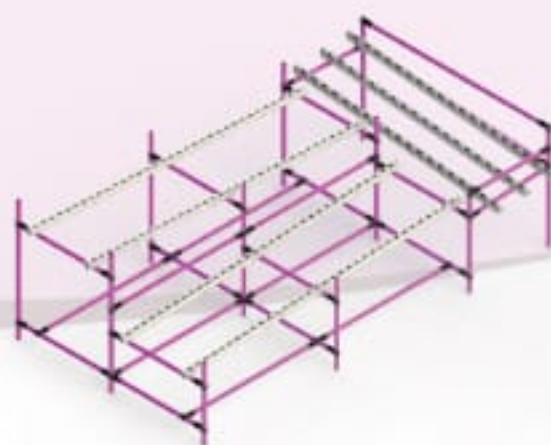

Whenever you're ready, and with just a small extra cost (approx 0% to 25% of the price of one unit), you can change the cabin into:

Walk-in closet
(formed by combining 3
cabins together)

Flow Rack
(w/roller conveyor)

Storage Shelves

PC Desk/Workstation

Or even more !

Disclaimer:

This product does not secure you and your people from Covid19. Nor does it carry out a 100% disinfection on clothes and skin. It only reduces risk. Therefore DO NOT use this unit to relax your safety restrictions. It remains the sole responsibility of every person to continue taking other precautions (distancing, wearing masks or faceshields, cleaning hands, etc.).

Furthermore, when using hydrogen peroxide (our recommended disinfectant chemical), please ask users to close their eyes when entering, till spray cycle is over. We recommend a clear sign stating that, near the gel dispenser.

Stay lean and resilient in these troubled times !
